CATAN®

SEAFARERS

5-6 PLAYER EXPANSION

CATAN® – Seafarers 5-6 Player Expansion™ (aka *Seafarers 5-6*) allows you to add one or two players to your *CATAN – Seafarers Expansion™* (aka *Seafarers*) game. *Seafarers 5-6* uses the same rules as *Seafarers* with a few additions, including updates for:

1. Board assembly
2. The paired players turn

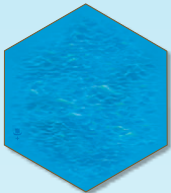

Seafarers 5-6 follows the new paired player rules found in *CATAN – 5-6 Player Expansion™* (2025) (aka *CATAN 5-6*).

COMPONENTS

To play *Seafarers 5-6*, you will need most of the components from *CATAN – The Game™* (aka *CATAN*), *CATAN 5-6*, and *Seafarers*. Return the number discs from *Seafarers* to the box. You will use the ones from *CATAN* and *CATAN 5-6*.

Seafarers 5-6 components can be identified by this icon .

CHANGES TO SETUP

ASSEMBLE THE FRAME

Assemble the frame using all the frame pieces from CATAN, *CATAN 5–6*, *Seafarers*, and *Seafarers 5–6*. As with *Seafarers*, it is easier to assemble the frame by placing the CATAN frame pieces down onto the *Seafarers* frame pieces.

CHOOSE THE FIRST PLAYER

Each player rolls the dice. The player with the highest roll is the first player and receives the player 1 marker. The third person to the left of the starting player receives the player 2 marker.

RULES

NOTE: This edition has **new paired player rules** that replace the special building phase found in previous 5–6 player expansions.

TURN OVERVIEW

CATAN 5–6 is played over a series of turns, starting with the first player, and moving clockwise around the table. A turn consists of three phases, which occur in this order:

PLAYER 1

1. Production Phase
2. Action Phase

PLAYER 2

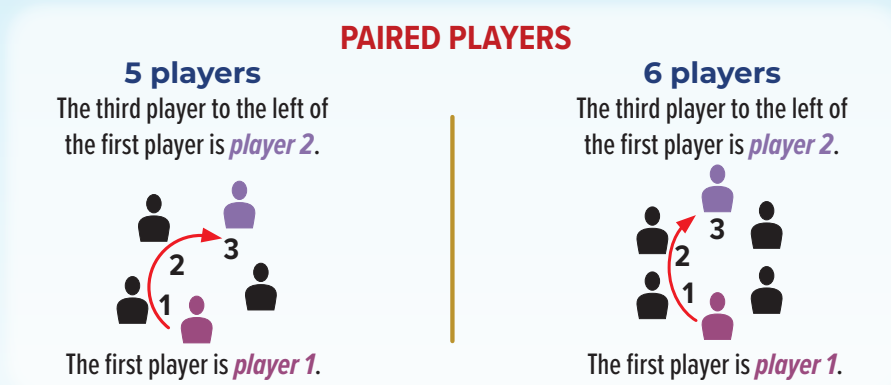

3. Action Phase

Once player 2 has finished their Action phase, if the game has not ended yet, pass the dice and the player markers to the left. The new player 1 begins their turn with the Production phase.

RULES CHANGE FOR PAIRED PLAYERS

Player 1 takes their turn exactly as they would in a game of *Seafarers*, including meeting the scenario’s “Winning the Game” condition. In this case, the game ends immediately—even before player 2 takes their Action phase.

If player 1 does not win on their turn, then player 2 takes an Action phase with one restriction: Player 2 may not trade with other players.

Note: Development cards built when you are player 2 may be played as normal when you are player 1 and vice versa.

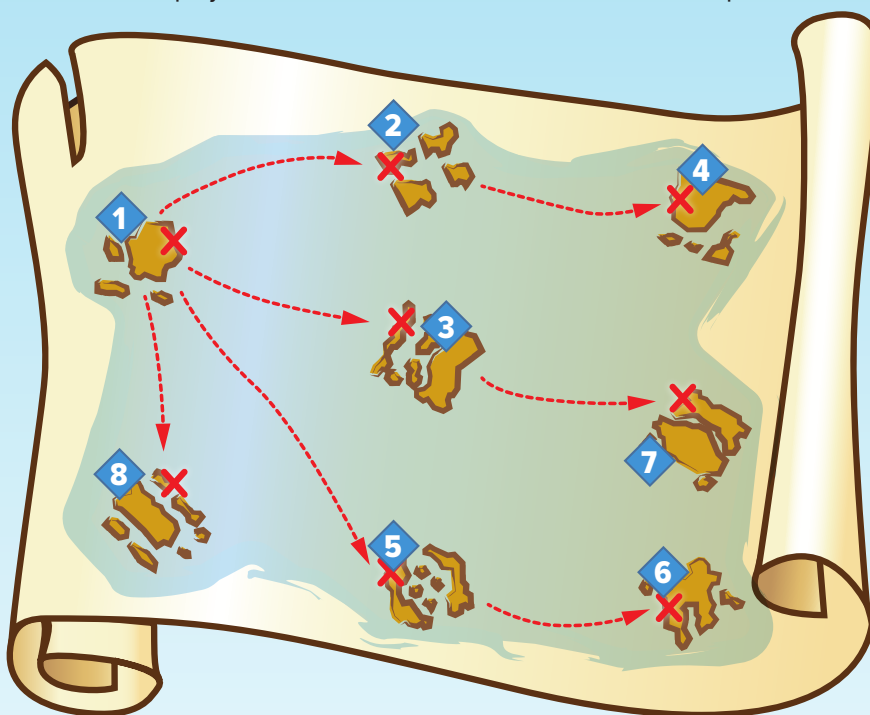

If player 2 reaches the scenario’s “Winning the Game” condition during their part of the paired player turn, they win and the game ends immediately.

TURN SUMMARY CHART

1  PLAYER 1	2  PLAYER 2
• Production Phase	
• Action Phase ▶ Trade (with players or supply) ▶ Build ▶ Move 1 ship ▶ Play 1 development card (optional)	• Action Phase ▶ Trade (with supply) ▶ Build ▶ Move 1 ship ▶ Play 1 development card (optional)

SCENARIOS

The scenarios in *Seafarers* 5–6 are played the same as in *Seafarers* with a few exceptions noted in the specific scenario.

The first four scenarios focus on the basic rules of *Seafarers*. Their gameplay is simpler.

- 1  Heading for New Shores
- 2  The Six Islands
- 3  The Fog Islands
- 4  Through the Desert

The next four scenarios introduce additional rules specific to each scenario. Their gameplay is more complex.

- 5  The Forgotten Tribe
- 6  Cloth for Catan
- 7  The Pirate Islands
- 8  The Wonders of Catan

Finally, the New World variant introduces rules for creating your own set of islands to explore.

HEADING FOR NEW SHORES

SETUP

Set up the small islands as shown. The main island is created using the *CATAN* 5–6 Variable Setup rules, randomly placing ports on the indicated locations. Then place the pirate on the indicated location. Finally, place your starting settlements as described in *Seafarers*.
